1. Introduction

Welcome to **Dazzle Auto**, your all-in-one solution for managing service stations and spare parts shops. This manual will guide you through using the software's features effectively.

2. Getting Started

First-Time Database Setup

When you first open the software, a loading screen will appear, followed by a **Database Connection Window**.

- 1. Enter your database details:
 - Database Name
 - Username
 - Password
 - Port Number
- 2. Click **Connect** to initialize the connection.
- 3. This window appears only during the first launch; subsequent launches will skip directly to the **Login Chooser Window**.

3. Login and Access

Login Chooser

Choose the section you wish to access:

- Service Station (accessible by managers and owners only).
- Spare Parts Shop (accessible to cashiers and other employees).

User Roles and Access Levels

Access to different sections depends on the user role:

- Owners: Access to all features, including Dashboard and Login Access Manager.
- Managers: Access to service station features.
- Cashiers: Limited to shop-related features.

4. Service Station Module

Dashboard Overview

The **Dashboard** provides an overview of key analytics:

- Today's Data: Attendance, appointments, income, expenses, and revenue.
- Charts and Graphs:
 - Pie charts for registered vehicles and issued invoices.
 - Bar charts for top customers and most serviced vehicles.

Payments Section

- View Paid Invoices: A sortable table lets you search by Invoice IDs.
- Double-Click Invoice: View detailed information like service type, vehicle type, and notes.
- Add Invoice:
 - 1. Click Add Invoice.
 - 2. Select a vehicle by clicking **Select Vehicle**.
 - 3. Choose a service and add notes.
 - 4. Click **Add Invoice** to populate the table below.
 - 5. Select payment method (Cash/Card).
 - 6. Click **Print Invoice** to save and print a report.

Appointment Section

- **View Appointments**: A sortable table lets you filter by:
 - Date, Appointment No., Vehicle No., or Status (Pending/Ongoing/Closed).
- **Double-Click Appointment**: View details of the selected appointment.
- Add Appointment:
 - 1. Click Add Appointment.
 - 2. Select a vehicle and service.
 - 3. Set the date and add notes.
 - 4. Click Make Appointment to save or Reset to clear inputs.

Vehicle Management

- Registered Vehicles: Sortable by:
 - 1. Vehicle No., Vehicle Type, or Brand/Model (A-Z, Z-A).
- Double-Click Vehicle: Update vehicle details.
- View Vehicle History: Click the History button at the end of each row.
- Register New Vehicle:
 - 1. Click **Register Vehicle**.
 - 2. Enter details and click **Register** or **Reset**.

Customer Management

- **Customer List**: Searchable by:
 - 1. Name or Mobile No..
- **Double-Click Customer**: Update details in a new window.
- Register New Customer:
 - 1. Click Register Customer.
 - 2. Enter details and click **Register** or **Reset**.

Services

- Registered Services: Sortable by:
 - 1. Service Name or Vehicle Type.
- Add New Service:

- 1. Click Add New Service.
- 2. Enter details and click **Register** or **Reset**.

Finance and HR

- 1. Employee Attendance:
 - Use Web Camera to scan QR IDs or mark manually.
 - Attendance table updates automatically.
- 2. Employee Salaries:
 - o Auto-calculates deductions and bonuses.
 - Final salary displayed and added to the table.
- 3. Income Tax Calculator:
 - o Monthly/Yearly tax reports.
 - Auto-filled fields for final calculation.
 - Click **Print** to generate a report.

Reports

Generate reports for:

- Employees
- Vehicles
- Stock
- Services
- Invoices

5. Spare Parts Shop Module

Dashboard Overview

Similar to the Service Station dashboard, with additional:

- Stock Overview
- Best Selling Products

Payments Section

Features are identical to the Service Station payment section.

Items and Supplier Management

- 1. Items:
 - Sortable by Name, Item ID, or Brand.
 - Double-click to update or click Register Item for new entries.

2. Brands:

o Register new brands by clicking Register Brand.

Stock Management

- Sortable by:
 - Product ID (A-Z, Z-A) or Brand Name.
 - **Price Range** search.

GRN Management

- 1. Add records for new products delivered by suppliers.
- 2. Clear Inputs to reset fields or Save GRN to store data.
- 3. Auto-calculates totals and generates GRN reports.
